

OSTRACISED.

Catholic Societies Expelled Non-Union Miners in Anthracite Coal Field.

CHAIRMAN GRAY DENOUNCES BOYCOTS MOST VIGOROUSLY.

Heartbreaking Stories of Persecution and Violence to Non-Union Men and Families.

OPERATOR'S SIDE NOW GETS HEARING.

Scranton, Pa., Dec. 19.—Non-union men, some of their relatives and others to the number of thirty appeared before the anthracite coal strike commission today and told their stories of boycotts, intimidation, dynamiting and violence in various forms during the late strike. Each witness called was a sufferer in one form or another at the hands of union men. Four witnesses said attempts were made to blow up their houses, one house was badly damaged, many of the witnesses were threatened with bodily harm, several were beaten, one was shot in the leg and every one stoned, boycotted or hanged in effigy. One school teacher testified to having lost his position because his father did not strike. One man was asked to resign from a Catholic temperance society and another witness was expelled from a local lodge of the Ancient Order of Hibernians after a membership of twenty-six or twenty-eight years because they were classed as un-air workmen.

Joseph H. Dugan, the man who was requested to give up his membership in the Catholic temperance society, remained at work doing repair work and acting as a watchman. He wept while on the witness stand as he told of how they ordered him to leave after many years of pleasant social relations with its members. He was very active in the society and drilled many of those who have grown to manhood in the military branch of the Catholic society. He said he had been stoned and otherwise badly treated, and added that a good flogging would not have hurt him as much as the action of the society in throwing him out of the order. The boys he had drilled in the society stoned him on the highway.

Chairman Gray asked the witness if he remained at work so that the pumps could be kept in good repair, and thus keep the mines from being destroyed, and he said he did.

Mr. Darrow asked him how long he worked, and examined him in such a way on this that it drew out the remark from Chairman Gray that men will work fifteen hours to help save a neighbor's house.

Other witnesses testified that grocers, butchers, milkmen and loamen refused to serve them because they were afraid their business would be boycotted.

Denounces Boycotts.

"The coward who will go to the storekeeper," Chairman Gray said, "and tell him not to sell the necessities of life to a poor woman usually seeks the obscurity that the law of evidence throws around him. If a girl is discharged from her position in a store because she rode in a street car in inclement weather while a street car strike was on, the coward who discharged her is coward enough to refuse to testify."

He recognized, he said, why some merchants will not come

forward and tell who forced him to refuse to sell the necessities of life to certain boycotted persons, but if he (Chairman Gray) were a storekeeper he thought he would risk his all in order in breaking up the cowardly business.

LATER NEWS FROM THE COMMISSION.

Other Boycotts and Persecutions.—Woman's Home Burned Because Husband Worked.

Scranton, Pa., Dec. 20.—John H. Otto, the first witness called, said all the merchants in Archbald, Pa., were compelled to boycott him because he worked in the mines.

The second witness was a boy, who was forced to leave the store he was employed in on account of his father being a non-union man, and the next witness testified that strikers tried to have him forced from the volunteer fire company because he continued at work as a mine engineer during the strike.

Her Home Burned.

Mrs. Rhoda Snyder, of Wilkesbarre, with a baby in her arms, took the stand and, with tears running down her face, told of the burning of her home by strikers. Her husband was in the mines and could not come home because he feared bodily harm. She and her children were so badly abused that she moved to another part of the city. Her reception in the new home was hostile, and she decided to move to her mother-in-law's home. The strikers prevented her, and she and her two children took refuge with the mother-in-law. The same night the house and all its contents were destroyed by fire. Her goods were not insured. Her father-in-law corroborated her testimony.

Dr. L. L. Sprague, president of Wyoming Seminary, of Kingston, told of the difficulty he had in getting coal for the seminary. He said the union made it very difficult for the institution to get its supply of fuel.

IF WE KNEW.

BLUE G. HARD.

If we knew each other's mind And the secrets hidden there, What revolutions we would find When that mind to us lay bare.

If we knew each other's mind, Knew each other's every thought, Friendship would not be so sweet If we knew that it was bought.

If we knew each other's mind, As each of us would like to do, How many would prove false That now we think so true?

If we knew each other's mind Grieved would be our hearts today, From many that we cling to now Sadly we would turn away.

ASKS DAMAGES.

Principal of Henderson High School Sues Proprietor of the Gleaner.

Henderson, Ky., Dec. 18.—A sensational suit was filed this morning in the Circuit Court by H. A. Hayes, principal of the High School against F. A Kentucky woman has made the record of divorcing herself from two husbands in one day and for a single attorney's fee. Isn't this a trifle speedy for the Blue Grass State? It would seem to be more in accord with the Chicago pace.

DOWN IN THE MINES.

Quick action was required in the early morning to prevent a serious break in the dam, but the water was kept under control and only trivial damage was done.

Geo. W. Wyatt had a very remarkable head-on collision in the mine the other day and now sports two black eyes and a bruised proboscis. It was not a collision of trains or of coal cars. He simply came face to face with a mine mule and the mule's head was the hardest.

KENTUCKY AT THE FAIR

Money Raising Promises to Go Along With A Vim—What Some Are Doing.

AGRICULTURAL SUB-COMMITTEES ARE NOW BEING APPOINTED.

Covington has organized to raise \$12,000 towards a Kentucky building and full display of Kentucky's products and resources at the World's Fair. Lexington and Fayette county are counting on getting \$10,000. In fact, a majority of the counties have gone to work with a vim, determined to do their share.

Chairman L. D. Dorsey, of the Committee on Live Stock Exhibit at the World's Fair, has appointed sub-committees on every class of stock in the State, including five kinds of cattle, five kinds of horses, sheep, hogs, jacks, mules, Belgian hares, poultry and pigeons. He says Kentucky will beat the world on live stock, as she will in many other things, at the exposition.

The Finance Committee of the Kentucky Exhibit Association has been perfecting an organization in every city and county in the State that will undoubtedly bring in thousands of dollars toward the \$100,000 fund immediately after the New Year. All the sub-committees on large interests—such as distillers and liquor dealers, oil companies, lumber firms and corporations, manufacturers, live stock dealers, banks, coal companies—are getting or preparing to get out letters asking for subscriptions, which may be sent either to the Secretary at Louisville or to the Secretary of the organization in their county.

Hon. I. B. Hall, Commissioner of Agriculture, who is chairman of the Committee on Agricultural and Horticultural Exhibits at the World's Fair, is appointing sub-committees in every county in the State and the list will be announced within the next few days. The membership of these sub-committees ranges from three to ten. Each will have a chairman and will be expected to see that its county is represented in the exhibits by everything possible of an agricultural and horticultural nature.

Church Property Bought.

The Knoxville, LaFollette & Jellico railroad (L. & N.) has purchased the site of the German Evangelical Lutheran Church in Knoxville. This property will be used by the railroad as a part of the tract for its magnificent passenger station. The price paid, it is said, was \$18,500, and it is understood the railroad agrees to contribute \$500 to the church building fund. The property is to be surrendered to the railroad March.

BITS FOR THE EGOIDR.

Suggestions for the Ladies Regarding the Care of the Complexion and Toilet.

A complexion treatment from the good old days, when gentlemen did not leave their health entirely to the care of other people, reads pleasantly enough. It will be worth transferring to those brocade bound MS. recipe books which are a fancy with women of taste. For a good complexion take one heaping teaspoonful of dried elder flowers, or fresh flowers if you can still find them, along shaded meadow paths. Pour over it one cupful of boiling filtered water and cover close. Let it steep 15 minutes, strain and add sugar and lemon juice to the taste, omitting them if so preferred. Make this tea fresh every morning, and drink it half an hour before breakfast for one week. The next week use chamomile flowers instead of elder flowers. Prepare the tea and drink it the same way. Drink these teas alternately for three or four months, and after that twice each week. They improve the health and nerves in every way, as well as the complexion, says the New York Tribune.

One hears constantly of the virtue of scrubbing the face and keeping it clean, but there are women with delicate faces which do not well bear this sort of household treatment. Scrubbing irritates many skins, brings out a plentiful down on some fresh complexion, and sets up a bleeding inflammation in certain cases of blackheads and pustules. To cleanse the face thoroughly by a simple method, which has been exposed to much dust and grime, in the streets of New York any day for an hour this present year of upheaval and down digging, rub it over with sweet olive oil. Let the oil remain from ten minutes to half an hour, as time allows, wash it off with warm water and fine soap, wipe with a Turkish towel, which is advisable for the face always. Finish by dashing cold water on the face, and wipe again.

One of the latest adjuncts to the toilet is a lace edged perfumed cloth of peculiar fabric, which is carried about with one, and used to give the face a smart rubbing for a moment or two each hour. In the vestibule dressing room, or before leaving one's room to receive visitors, a few touches with this prepared cloth will refresh the face, and give it a peculiar fine flash, like that of statuary marble, which is not a polish, it must be remembered.

There is much castile soap which is not at all good for hair or skin. Good castile soap can be told by its clean, agreeable smell, not of rancid refuse oils, or of cottonseed oil unpurified, which is unpleasant in any state, till it is carefully treated, and which develops a bad smell on the hands after drying. A sharp potash odor, i. e., like potash, is not a good sign. The alkali is too strong, and will irritate the skin. Good, old soap dries quickly after wetting; poor soap in a sloop way. Babies and children suffer untold miseries from poor soap, which, especially when not well rinsed off, causes irritation about the throat and armpits and legs, making the children fretful and tiresome. They suffer discomfort when their world end intolerable.

HOTELKEEPER A GENIUS.

Rigged Up a Sea Serpent That Was About Up to the General Conception of the Real Thing.

The mechanical genius of a Bath Beach hotel man caused many of the hotel guests to delight in the delusion that they had witnessed a real summer resort sea serpent. Every one at the Port Lorry hotel is authority for the fact that, regarding the appearance of the monster at last, there could be no possibility of a doubt, relates Popular Mechanics. It was about the color of the men and women guests were chatting merrily on the hotel piazza, that the monster, gleaming like colored ice, rose from the waves about a dozen yards from the end of the Bath Beach pier. A phosphorescent fire, green and ghastly, gleamed from its scales as it slowly made its way toward the guests. Some crowded to get a closer view, and some of the women screamed in awe. The monster darted in and out of the water, changing its course, and leaping clear out of the water as it made for the open bay. "It's a phosphorescent porpoise," said Nathan B. Appel, a guest of the hotel, and who is supposed to be an authority on fish.

The whole town was excited over it. Further investigation revealed beyond a doubt that Mr. Platz, a couple of fellow-conspirators, a carpenter, a fish-baiter, and some luminous paint and phosphoric oil, two or three hundred yards of small rope, a block and pulley, and a boat at anchor out of sight in the bay, were the cause of the appearance of the mysterious creature.

This is an excellent desert for either hot or cold use. Quarter box gelatin dissolved in one-quarter cupful cold water; one cupful strong coffee; five tablespoonfuls sugar, yolks of four eggs. Put in double boiler and cook until thick. When cold, fold in pint whipped cream and one teaspoonful vanilla. Pour into mold and put on ice until ready to serve.—Boston Globe.

WAS DENIED A NEW TRIAL.

Judge Ryan Overruled the Motion For a New Trial for Robert M. Snyder.

IS CHIEF OF THE ST. LOUIS BROTHERS.

Snyder was Formally Sentenced to Five Years in the Penitentiary, and Allowed Sixty Days in Which to File Bill of Exceptions For an Appeal.

St. Louis, Dec. 7.—Robert M. Snyder, millionaire promoter, was sentenced to serve five years in the state penitentiary, on conviction of bribery, by Judge Ryan, of the circuit court Monday morning.

Formal pronouncing of the sentence followed the court's overruling of the defendant's motion for a new trial.

Snyder, who had sat passive during the brief proceedings, arose and advanced to the bar where he stood looking at Judge Ryan.

"Have you anything to say why sentence should not be passed upon the case?" asked the judge.

"No, I have not," replied Snyder, in a low voice.

"Then," said Judge Ryan, "in accordance with the request of the jury I hereby sentence you to serve five years in the penitentiary."

Snyder took his seat, and Morton J. Ford, in this case, moved a motion that 60 days be allowed in which to file a bill of exceptions appealing the case to the supreme court. The court granted the motion.

Snyder's new bond for \$25,000 was signed by Messrs. Priest and Jordan, and the court adjourned.

"I have nothing to say," was Snyder's reply when asked concerning the court's decision.

Snyder was found guilty of bribery in connection with the passage of the Central Traction bill through the municipal assembly in 1904.

More than three years had elapsed since the time he had given bribes to members of the city council for their vote in favor of the bill.

He had been a resident of New York during most of that time, and therefore residing was not barred by the Missouri statute of limitations. This statute is operative to bar prosecution if a person accused has resided in this state three years subsequent to the offense alleged.

Snyder's lawyers contended that their client was a resident of Kansas City within the meaning of the statute, and they based their defense upon that point, hoping to save the defendant by relying upon the statute of limitations.

HER MARKSMANSHIP POOR.

Mrs. Henry Jenkins Creates a Sensation On the Streets of Webb City, Mo.

Joplin, Mo., Dec. 6.—The poor marksmanship of Mrs. Henry Jenkins is all that prevented a tragedy on the streets of Webb City. THURSDAY, DEC. 25, 1902.

This is the last issue of THE BEE in the year 1902 and we wish to say to our friends, who have stood by us so nobly, we sincerely thank you for your assistance in various ways and appreciate your material help. We feel grateful for the kind words you have spoken in our favor and feel sure we have given you a good paper and full value for your money. In the year 1903 it is our intention to make THE BEE a better paper than it has ever been, improving it in several respects. It is now a weekly visitor to over 2,000 homes and is read by fully 10,000 people, consequently you can readily see why, as an advertising medium, it is second to none in the county. THE BEE visits homes where no other paper circulates, hence your advertisements bring good results. The possibilities of THE BEE as a newspaper are practically unlimited and the management will seize every opportunity to make it one of the best weekly papers in the state. Here's wishing a merry Christmas and a happy New Year to every friend, subscriber and advertiser of THE BEE.

The Kentucky Exhibit Association has for some weeks been considering quietly the idea of issuing a weekly bulletin in a form of a supplement, to be used by Kentucky newspapers. News of the Exposition movement, with illustrations will be well covered and the bulletin will most likely be issued. This BEE expressed its endorsement of the idea some time since and will be one of the first papers to give its readers in Hopkins county the benefit of the interesting matter that is to be published in this way. All this special matter about a great State movement, served up in the most attractive form, will not cost the readers of THE BEE one cent additional. We shall be glad to thus serve our subscribers and give our fullest aid to the movement for a magnificent Kentucky exhibit at the Louisiana Purchase Exposition.

Here's to Harvey McCarty and hoping he may win the nomination for Representative from Jessamine county. Harvey is one of the most deserving newspaper boys in the State and as President of the Kentucky Press Association was of the time during the last session in the interest of the newspaper fraternity and the movement for a Kentucky exhibit at the Louisiana Purchase Exposition.

The Louisville Herald and Commercial is taking its place as a newspaper of front ranks with the journals of the South, as THE BEE predicted it would do. The news department of the Herald is growing more complete daily and Editor Young E. Allison is sure to grow on his readers. The old name of Commercial, which now appears in a secondary place in the title, will be forgotten and the new paper will become the Herald to this generation.

THE BEE comes on Tuesday this week to accommodate our advertisers and also the office force. We believe every one should

have Christmas day for their own and follow the bent of their inclination as long as they are inclined to do right. Our advertisers have done the square thing by us and we wish to show our appreciation of the same by giving them the advantage of the two days before Christmas.

Sick Blood

Feed pale girls on Scott's
Emulsion.

We do not need to give all
the reasons why Scott's
Emulsion restores the strength
and flesh and color of good
health to those who suffer
from sick blood.

The fact that it is the best
preparation of Cod Liver Oil,
rich in nutrition, full of healthy
stimulation is a suggestion as
to why it does what it does.

Scott's Emulsion presents
Cod Liver Oil at its best,
fullest in strength, least in
taste.

Young women in their
teens are permanently cured
of the peculiar disease of the
blood which shows itself in
paleness, weakness and nervous-
ness, by regular treatment
with Scott's Emulsion.

It is a true blood food and
is naturally adapted to the cure
of the blood sickness from
which so many young women
suffer.

We will be glad to send
a sample to any sufferer.
Be sure that this picture in
the form of a label is on the
wrapper of every bottle of
Emulsion you buy.

WHERE ITALY COMES IN.

The Basis on Which Italy Takes
Part in the Demonstration
Against Venezuela.

ITALAINS HAVE BEEN HEAVY LOSERS.

Their Coal Mines Have Been In-
vaded by Venezuelan Troops and De-
stroyed, and Their Marble Works
and Other Industries seriously
interfered with.

Rome, Dec. 28.—The claims of Italy
against Venezuela referred to by For-
eign Minister Prinetti in the chamber
of deputies here Monday, comprise
losses sustained by Italian citizens
during the recent revolution. Most
of the 7,617 Italian residents of Ven-
ezuela have been heavy losers. The
Poggioli firm, from Elba Island, is the
greatest sufferer. All its property
was sacked. Other important losers
are an engineer, named Marinetti,
and ex-Deputy Ragni, controller of the
Maritimo coal mines, which were in-
vaded by the Venezuelan troops, who
destroyed everything and obliged the
Italian miners to flee from the coun-
try. All the marble works in Ven-
ezuela, besides other industries, were
in the hands of Italians, hence the
aggregate of the Italian claims for
damages is large.

The instructions transmitted to
Capt. Orsini, commander of the Italian
cruiser Giovanni Bausan, now at
La Guayra, are to act in full accord
with the British and German com-
manders in the waters of the Ven-
ezuelan coast and any other measures
which may be considered necessary in
order to reach the desired object. The
Italian government, however, does not
anticipate having to co-operate in a
very serious action.

The Italian cruiser Elba is expected
to reach La Guayra January 4.

AN ULTIMATUM FROM ITALY.

The Italian Minister Ordered to Present
an Ultimatum.

Carnes, Dec. 28.—The Italian min-
ister to Venezuela, Signor De Litta,
received orders from Rome to
leave Caracas in the morning. He
will go on board the Italian cruiser,
Giovanni Bausan at La Guayra.
Signor De Litta has been instructed
by his government to present to the
government of Venezuela, in the form
of an ultimatum, Italy's demand for
the immediate payment of \$542,000 to
meet the Italian claims arising from
former revolutions. As it is known
that the Venezuelan government can-
not pay the amount demanded, the
communication to the minister in-
cludes orders to the foreign legation
to leave Caracas in the morning. The
ultimatum from Italy is couched in
stronger terms than those used in
the ultimatums presented to
Venezuela by Great Britain and Ger-
many. Italy will take part in future
demonstrations against Venezuela.
The interests of Italy in Venezuela
to remove the shields over her
consulates. This step will be taken
in order that the rupture between
Italy and Venezuela may be apparent.

NO NEARER SETTLEMENT.

England Shows No Inclination to Let
Venezuela Go Unpunished.

London, Dec. 27.—Judgment from
statements given out by the foreign
office the Venezuelan situation does
not appear to be any nearer a settle-
ment. Up to a late hour the
British government has been made
that Great Britain could eventually
see its way to submitting its claim to
arbitration and that the foreign
points out that Venezuela's offer to
arbitrate is extremely vague. Presi-
dent Castro, in the communication in
which he expresses his willingness to
resort to arbitration, provides no
guarantee that the rights of British
subjects in Venezuela will be respect-
ed pending the award. The foreign
office claims that some matters are
impossible to arbitrate, instancing the
disrespectful treatment of Mr. Bag-
gard, British minister to Venezuela.
To arbitrate the financial claims
however, will meet with opposition
in the official circles of London, nor
does there any desire to stir up opposi-
tion by continuing unnecessarily the
present state of affairs. The foreign
office, "at the same time there is not
the slightest inclination to let Ven-
ezuela go unpunished for her repeated
insults and injuries. The offer to ar-
bitrate comes very late in the day.
We are not satisfied with the offer,
but must leave ourselves against a re-
currence of the acts which led to the
present situation."

WENT INTO THE DITCH.

The Erie Fast-Train Limited in the
Ditch at Newburg, O.—The
Engineer Killed.

Cleveland, O., Dec. 27.—The fast-
train limited on the Erie, which left
here shortly after noon, went into
the ditch at Newburg, a suburb. John
Bosch, the engineer, reported to have
been killed, and Fireman Landon se-
riously injured.
Several passengers are also report-
ed hurt.

While Wise Doctors

are studying the bacillus of consump-
tion, thoughtful laymen realize that
a cold is accompanied by cough-
ing, sore throat and tightness across
the chest is too serious a matter for
delay or experiment. They also re-
alize that Allen's Lung Balm
cures a cold in a day or two. Ob-
stinate cases take more time, of course.

This kind of weather is enough to
give one the navy blues.

Needed in Africa.

The Emperor Menelik, of Abyssinia, has issued an edict prohibiting the importation of alcoholic drinks into his empire. French wines and German beer, he says, have found their way to his court. He has watched their effects and has come to the conclusion that if he does not put a stop to the drinking that is going on, his empire will soon fall a prey to other nations.

The emperor has no objection to European arts and sciences, but he sets his face against European poison, and declares that he will punish importers of alcoholic liquors. In the preamble to his edict he says that drunkenness is pernicious, that it enfeebles a race and destroys both body and mind.

He desires that his people remain strong, healthy and independent, and as a means to that end prohibits alcoholic drinks in every part of his kingdom.

Another Instance Where

Prohibition Prohibits.

Dartmouth is a Nova Scotia town of about six thousand inhabitants, separated from the city of Halifax by an arm of the sea, across which ferry boats constantly run. It could scarcely be more unfavorably situated for testing the value of prohibition, as its proximity to Halifax, where plenty of whisky can be obtained, causes it to be the dumping ground for much of the results of the traffic.

For nearly twenty years this town has been under a prohibitory liquor law, and the people consider it to be a positive advantage. There is not a pool or billiard room in the place, and no child has ever had to pass an open saloon on its way to school.

Dr. Frank Woodbury, a prominent citizen of Dartmouth, says: "Prohibition has changed our town from being a disorderly and drunken place to one of the cleanest and most prosperous in

Nova Scotia. There are many families living in comfort today because the husband does not have to pass a saloon in going to or from work. The boys on the streets in the evenings have no temptations to linger around the saloons, because there are none. This is not a Scott Act county, but is under the Provincial Licence Act, which allows a saloon wherever enough rate-payers petition for it. Numbers of attempts have been made, but with uniform failure.
